Project Title: DocuSign Integration

Date: 10/10/2021

## Members:

-Justin Rule –

-Ale Groe -

-Alan Zapinski -

-Carson Meyer -

-Jack Goldsworth -

-Conley McKown -

-Joe Slater -

## What we've accomplished in the past week/what we've been researching

-Justin Rule– Developed and presented the project plan, specifically risks and scheduling

-Ale Groe - Reached out to faculty advisor to set up initial meeting, presented in class about project plan

-Alan Zapinski - Signed up for DocuSign API account to start looking into how the API is used and how we can use it to meet Buildertrend's needs

-Carson Meyer - Did some research into DocuSign and the API. Presented a project plan in class. Took notes over the design in class.

-Jack Goldsworth - Developed project plan, and set milestones for our team.

-Conley McKown - At a wedding in TN, didn't do much but help with the lightning talk.

-Joe Slater - Recorded and worked on lightning talk presentation

## What we're planning to do in the coming week

-Justin Rule – Research DocuSign's API for Buildertrend's use cases

-Ale Groe - Finalize meeting with faculty advisor and research DocuSign

-Alan Zapinski - Get more in depth researching docuSign's API. Try to spin up some basic examples of connecting with the API/find some documentation on how it's done

-Carson Meyer - Set up a meeting with Buildertrend to setup communication and get more resources.

- Jack Goldsworth - Research interfacing with DocuSign's API (REST, SOAP, authentication)
- Conley McKown - Following up with the BuilderTrend contact as we are still missing documentation she said she would send over.
- Joe Slater - Research DocuSign API, mess around with it a little bit

### Issues we had in the previous week

- Justin Rule – Faculty sponsor hasn't responded to our email to set up meetings
- Ale Groe - Faculty advisor hasn't gotten back to us
- Alan Zapinski - Had problems setting up account initially, took a few days to complete
- Carson Meyer - Still no contact with faculty, we need more information from Buildertrend to keep the project heading in the right direction. I was out of town last week, so it was hard for me to get work done.
- Jack Goldsworth - Faculty advisor hasn't gotten back to us
- Conley McKown - BuilderTrend contact still has not given us expected documentation.
- Joe Slater - Faculty advisor hasn't gotten back to us
