Project Title: DocuSign Integration

Date: 10/31/2021

Members:

-Justin Rule –

-Ale Groe -

-Jack Goldsworth -

-Alan Zapinksi -

-Carson Meyer -

-Joe Slater -

-Conley McKown -

What we've accomplished in the past week/what we've been researching

-Justin Rule – Researched frontend technologies to best integrate with DocuSign for our web app

-Ale Groe - Contacted faculty advisor about a potential meeting next thursday at the same time.

-Jack Goldsworth - Researched back-end technologies for POC.

-Alan Zapinksi -More research into DocusignAPI

-Carson Meyer - How does DocuSign's API work, and finding more information about how to use it. No class work this week beyond the weekly report.

-Joe Slater - More API research and simple testing

-Conley McKown - Refining existing reports we've done in preparation for our final doc.

What we're planning to do in the coming week

-Justin Rule – Meeting again with our faculty advisor + planning our final design document

-Ale Groe - Finalize meeting with faculty advisor

-Jack Goldsworth - Research back-end technologies for POC.

-Alan Zapinksi - Meeting and start getting the information we need to make final design decisions

-Carson Meyer - Continue Docusign research, what areas are going to need more work and research than others.

-Joe Slater - Frontend research & testing

-Conley McKown - Meeting with faculty advisor.

Issues we had in the previous week

-Justin Rule – None

-Ale Groe - None

-Jack Goldsworth - None

-Alan Zapinksi - None

-Carson Meyer - No issues for me.

-Joe Slater - None

-Conley McKown - None.
